

Natural • MICRONESIA COLLECTION

Our beautiful Micronesia Collection encompasses the vast regions of its tiny islands. Like the staggering limestone plateaus of the Marianas, the steep volcanic peaks of the Carolines, and the dazzling coral reef of Kwajalein, this collection is filled with unique and diverse designs. You are sure to be transported to the heart of the pacific with this slice of paradise.

Variation in color, shade, finish, hardness, strength and slip resistance is inherent in Natural stone products. White marbles contain naturally occurring deposits of iron which may lead to discoloration of marble and turning it yellow-rust or gray if used in wet areas. These are natural characteristics of the stone and that is why it cannot be considered as a defect in the product. We are in no way responsible for discoloration of the natural stones.
